These conferences proved very successful. There were 81 children examined. Twenty-one were examined for the second examination.

76 children were found with defects.

151 defects were found.

43 defects corrected.

50 defects improved.

56 defects under supervision.

2 defects unaccounted for.

3 children are attending tuberculosis clinics.

These conferences were conducted by the Division of Maternity, Infancy and Child Hygiene, of the State Board of Health, cooperating with a local committee. It is our aim to have every child physically well before entering school. Blanche E. Sanderson is the nurse in charge of your district. Headquarters Chamber of Commerce, Laconia, N. H.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Sanbornton:—

I herewith submit my fifth annual report. The past year has been a most satisfactory one so far as school work and progress is concerned. The number of failures in class work last year was unusually few; the good work being done in the Franklin, Tilton, and Laconia schools, by those entering from the Sanbornton schools, reflects credit upon both teachers and pupils for the work done in your schools.

The amount, as well as kind of work, done in our schools is commendable and I believe would compare favorably with that of the average work in other country schools.

All the teachers, but one, this year in the Sanbornton schools are Normal trained and that one has had the equivalent of such training. This fact means much to the pupils and to the best welfare of the schools.

The attendance this winter, so far, has averaged much higher than in any winter since my connection with your schools. I presume this fact is due largely to the better condition of the roads and the absence of any contagious disease.

I wish here to express the appreciation of pupils, teachers and superintendent for the help given us through the supplementary reading matter which the Taylor fund enabled us to purchase and profit by. We need much more before the supply is anywhere near adequate for carrying out what should be done in supplementing the various studies.

The schools have proceeded since September with practically no annoying troubles and less friction of any kind than in any of the previous five years. This fact in itself is a compliment to your teachers and the school management in general.

The above are some of the good things to be said about the Sanbornton schools this year. They are not, however, perfect schools—I know of none such anywhere. There are things about the school buildings that are not satisfactory to me nor to you; but I know that you have conscientiously planned for each year such improvements as your finances warranted, and that all the school buildings are in much better condition than five years ago when we began working together, with the possible exception of the Calef Hill school, which will undoubtedly receive attention from you this year.

This present school year promises to be the most satisfactory in its work and results of any of the five since my coming to Sanbornton; the teachers are satisfactory, the pupils interested, the attendance fairly regular and no sickness has thus far kept any considerable number from school.

The cooperation and friendliness shown me by your Board and the teachers, pupils and taxpayers has made possible the improvement in Sanbornton schools. I assure you that I appreciate it all.

Respectfully submitted,

FRED S. LIBBEY,
Superintendent of Schools.
